-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on Jun 11, 2002
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11; 453 O.G. 213.

Art Unit: 1755

1. This Office action is in response to the amendment filed 6/11/02 and refers to the rejection mailed 11/30/01.
2. The proposed drawing correction filed on 6/11/02 has been disapproved because it is not in the form of a pen-and-ink sketch showing changes in red ink or with the changes otherwise highlighted. See MPEP § 608.02(v).
3. Claims 56-93, 108 and 109 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 109 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

In claims 56, 57, 65, 66, 75 and 84, "linear cycloalkyl, linear aryl, branched cycloalkyl, and branched aryl" all make no sense since aryl groups cannot be branched themselves, nor does linear even apply to the class of group, or can a purely cycloalkyl group have branches nor does linear apply to the class of group.

In claims 56, 65 and 66, it is not clear what is meant by "according to a value of c".

In claims 56, 65 and 66, defining G as being an atom selected from groups 15 and 16 of the periodic table and boron without requiring at least one of the G groups to be a cyclopentadienyl-containing group is contrary to the definition earlier in the claims that these compounds are necessarily metallocenes.

Art Unit: 1755

In claims 56, 65 and 66, defining $x + y$ to be 4 is contrary to the metal being either from group 3 or being a lanthanide other than cerium, since these metals can only be in the 3+ oxidation state in order to give an electrically neutral compound as these appear to necessarily be.

In claims 59, 77 and 86, in the second line of each, the siloxy group should have a subscript 3 after the R".

In claims 57, 61, 62, 75, 79, 80, 84, 88 and 89, the variable R' is undefined.

In claim 61, insert --and-- before "propyl" in the penultimate line. Similarly in claims 79 and 88.

Claims 65 and 66 lack steps that include addition of the required cocatalyst. In the third line of step (a) of claim 66, it is not clear what is meant by "heterogenize".

Claim 70 is merely a repeat of claim 58 and this fails to further limit it.

4. The text of those sections of Title 35 US Code not included in this action can be found in a prior Office action.

5. Claims 56-64 and 69-74 and 109 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over any of Vega, Gila I, Antberg, or Patsidis as cited in and for the reasons of record given in paragraph 5 of the previous Office action.

6. Claims 56-65 and 69-74 and 109 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Gila II as cited in and for the reasons of record given in paragraph 6 of the previous Office action. The claims are read as

Art Unit: 1755

product-by-process claims with the process being the combination of the metallocene with the support, the product reading on that presently claimed.

7. Claims 56-93 and 108-109 are rejected under 35 U.S.C. 103(a) as being unpatentable over any of Vega, Gila I, Gila II, Antberg or Patsidis in view of Huh as cited in and for the reasons of record given in paragraph 7 of the previous Office action.

8. Applicant's arguments fail to comply with 37 CFR 1.111(b) because they amount to a general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references.

Applicant's arguments do not comply with 37 CFR 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made. Further, they do not show how the amendments avoid such references or objections. No amendments have in fact been made to the claims.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR

Art Unit: 1755

1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Pasterczyk whose telephone number is (703) 308-3497. The examiner can normally be reached on M-F from 8:30 to 5 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell, can be reached on (703) 308-3823. The fax phone number for the organization where this application or proceeding is assigned is (703) ~~305-5433~~. *872-9310 or 872-9311 for AF amendments.*

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
